January 2016

Dear Parent(s)/Guardian(s) and Community Members,

As you may be aware, the South Country Central School District has been identified as a third year Focused District with a third year Focused High School for the 2015-16 school year. The New York State Education Department requires Districts to notify the community about Public School Choice. To that end, this communication is to inform you that public school choice is an option when a school is designated as Focused by the New York State Education Department. Due to the fact that there is one High School in the South Country Central School District, the District is exempt from this requirement as there are no other alternatives.

Please be aware that our school administrators are currently working together with parents, teachers, and Central office to improve the status of our schools.

Sincerely,

Dr. Cherie Pemberton, Ed. D.
Assistant Superintendent for Curriculum, Instruction, and Accountability
